

IMPROVE BRAIN FUNCTION

Your Potential is Limitless. It's TIME TO IMPROVE BRAIN FUNCTION. Research has shown that we now can improve your brain's function up to 20% through Neuroplasticity!

Pre-Frontal Cortex

A brain has a variety of functions. Recent research has shown that specific chiropractic care can improve the functional of our Pre-Frontal Cortex by up to 20%.

Pre-Frontal Cortex

Associated Functions

- Executive Processes
- Decision making
- Intelligence
- Social Skills

Associated Cognitive Dysfunctions

- Impairment initiating voluntary behaviors
- Inappropriate social skills
- MEMORY Dysfunction

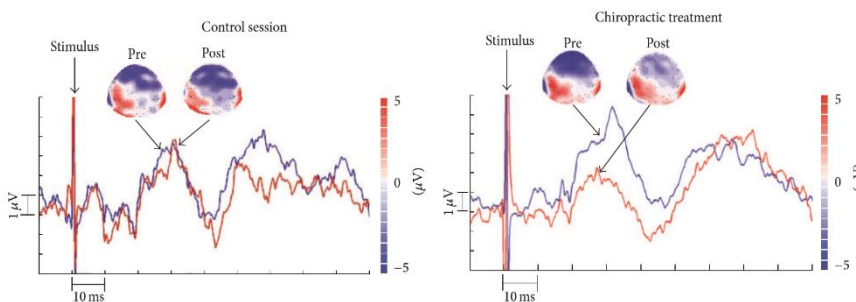

fMRI Research

Functional magnetic resonance imaging or functional MRI is a functional neuroimaging procedure using MRI technology that measures brain activity by detecting changes associated with blood flow. This technique relies on the fact that cerebral blood flow and neuronal activation are coupled. When an area of the brain

fMRI Research.

Chiropractic Manipulation specifically has shown stimulation of a reflex electromyographic activation that activates specific area's of the brain.
