

Toronto's NeuroStructural Aesthetic Clinic

- Jaw tenderness
- Muscle tightness
- Reduced movement quality
- Fatigue appearance
- Accelerated aging patterns

Our approach combines structural rehabilitation, neuromuscular therapies, circulation-focused treatments, and regenerative technologies to help patients improve both function and appearance naturally.

1. FACIAL MICROCURRENT THERAPY

- Facial toning
- Reduced puffiness
- Jawline enhancement
- Improved symmetry

HOW IT WORKS: Low-level electrical stimulation activates facial muscles and supports circulation and lymphatic drainage.

4. RED LIGHT & PHOTOBIOSTIMULATION

- Skin regeneration
- Collagen stimulation
- Reduced inflammation
- Scalp & hair support

HOW IT WORKS: Specific wavelengths of red and near-infrared light support mitochondrial activity and cellular recovery.

3. COSMETIC ACUPUNCTURE & FACIAL NEUROMUSCULAR THERAPY

- Reduced facial tension
- Improved circulation
- Facial balancing
- Reduced puffiness

HOW IT WORKS: Targeted stimulation of facial muscles and acupuncture points improves circulation and muscular balance.

6. LYMPHATIC DRAINAGE & FACIAL SCLPTING

- Reduced swelling
- Improved definition
- Faster recovery
- Enhanced circulation

HOW IT WORKS: Manual techniques that improve lymphatic flow and reduce fluid retention.

7. PERFORMANCE RECOVERY & ANTI-AGING

- Improved recovery
- Reduced inflammation
- Increased energy
- Stress reduction

HOW IT WORKS: Integrated therapies that support recovery, nervous system balance, and physical rejuvenation.

OUR APPROACH IS DIFFERENT

Traditional cosmetic clinics that focus on the skin, our approach addresses the root causes that influence skin and how you age.

The result is a more natural, healthier, performance-based approach to aesthetics and aging.

WHY STRUCTURE MATTERS FOR BEAUTY

Posture, spinal alignment, breathing mechanics, muscle tone, circulation, and nervous system function all influence how we age and how we look.

Poor posture and chronic stress patterns can contribute to:

- Forward head posture
- Facial tension
- Shallow breathing
- Jaw imbalance
- Muscle tightness
- Reduced movement quality
- Fatigue appearance
- Accelerated aging patterns

Our approach combines structural rehabilitation, neuromuscular therapies, circulation-focused treatments, and regenerative technologies to help patients improve both function and appearance naturally.
